

Service Acknowledgement

Any publications including manuscripts, posters, and/or presentations that include research utilizing InSTAR resources must acknowledge the facility. Funding agencies including NIGMS require and monitor these acknowledgements which serve to document the value of the core facilities to the University of Hawai'i community.

Cite as follows: "This (form of publication) reports data obtained at the University of Hawai'i at Mānoa Insectary for Scientific Training and Advances in Research Core, which is supported by an Institutional Development Award (IDeA) from the National Institute of General Medical Sciences of the National Institute of Health under grant number P20GM125508".

Service Fees

Users will be charged service fees in accordance with InSTAR user rates for services performed and usage of facility resources. These service fees are used for consumable supplies and reagents, operating costs, and for the maintenance and repair of instrumentation for the InSTAR core. These service fees are not a substitute for appropriate recognition of the contributions of InSTAR personnel through acknowledgements and/or co-authorship on publications.

Reporting Outcomes

Each year on the 1st of April, the individual faculty mentors of the users must provide an account of any publications, presentations, and/or posters acknowledging the InSTAR core facility to InSTAR personnel. Continued access to COBRE-supported resources is contingent on providing this vital information in the annual report.
